PCB Depanelizer (CWVC-480J)

Feature:

- Separates boards up to 3.5mm thick
- Shears boards safely with parts as close as 0.5mm to the score line, including ceramic capacitors
- Operator foolproof! Panels cannot be inserted into the knives except on the score line
- Pneumatically driven
- Handles high components up to 70mm
- Bow waves that can occur with round knives are avoided
- Easy adjusting of distance between knives
- Independent lab tests show less than 200 microstrains of stress measuring compression and tension.
- Has capacity counter function

Specification:

Model: CWVC-480J

The Longest Minimize: 480mm

Size: 990×425×350mm

Minimize thickness: 0.3-3.5mm

Machine Weight: 220KG
